

The overall mission of the Palestinian Health Sciences Education Centre is to provide high level professional education services support and enhance the learning capacity of all involved in health science education and service delivery as a continuing lifelong learning experience. In doing so, it will undertake research and development to pioneer and exploit all modalities of the revolution including video-conferencing, telemedicine, website learning and internet connections and vehicles such as Moodle aspiring to establish an international reputation as a center of excellence, eventually to have a major impact on patient care Palestine.

### Critical Nursing Core Training: Hemodynamic Monitoring and Interpretation

On July the 18<sup>th</sup> 2017, IMET2000-Pal organised a Critical Nursing Core Training on Hemodynamic Monitoring, Measurement and Interpretation. The workshop was held at the Palestine Red Crescent Society- Al-Bireh- Ramallah and was attended by more than 35 nurses working in different governmental hospitals, Augusta Victoria Hospital and An-Najah National University Hospital. This workshop was led by Mr Osaid Rashid, a lecturer at Al-Quds University. The training focused on the normal cardiac anatomy and physiology and normal blood hemodynamics pressures inside the heart, understand the arterial blood pressure monitoring: Invasive and noninvasive methods, and recognise levelling and taking measurements from invasive measurement methods

### IMET 2000-PAL organised the 8th BLS workshop in Nablus

On the 10<sup>th</sup> of July and in cooperation with the Arab American University/ Jenin, IMET2000-PAL organised the eighth training in Basic Life Support (BLS) for doctors and nurses working at Al-Watani Governmental Hospital in Nablus. The workshop was led by Mr Bahaa Hamad (AHA). This training aimed to enrich the knowledge of the participants with latest updates and applications of cardiopulmonary resuscitation according to the guidelines of the American Heart Association.
