## Basic Life Support for Physicians

March 17th, 2019; IMET2000-PAL in cooperation with Beit-Jala Governmental Hospital and Arab American University-Jenin organized the Critical Core Training: Basic Life Support (BLS) for Physicians. The workshop was attended by 10 physicians at the Arab American University in Al-Reyhan. This workshop was led by Mr. Ahmad Hudrob (American Heart Association "AHA" Instructor).

## Meeting with Jasmine Charitable Society

IMET2000-Pal Representative Mr. Fadi Zaben and Dr. Mohammad Obeidallah had a meeting with the CEO of Jasmine Charitable Society Mr. Omar Amin, and the Executive Director Mrs. Wafa Alshikh, to discuss opportunities to collaborate in the future, and an IMET2000 scholarship for help in the treatment of 20 children with learning difficulties.

## Critical Care Nurse Training: Overview of Mechanical Ventilator Support and Management

March 20th, 2019; IMET2000-PAL in cooperation with An-Najah National University Hospital and Ministry of Health organized the Critical Care Nurse Training: Overview of Mechanical Ventilator Support and Management. This training is designed to provide nurses with an overview of mechanical ventilators from a Nursing Perspective: basic theory and principles of mechanical ventilators, different modes and settings, complications, troubleshooting and supportive care. The workshop was attended by 30 nurses from governmental hospitals and from An-Najah National University Hospital in Nablus. This workshop was led by Dr. Muhammad H. Ibrahim.

## Basic Life Support for Physicians and Nurses

March 3rd, 2019; IMET2000-PAL in cooperation with Palestine Medical Complex and Arab American University-Jenin organized the Critical Core Training: Basic Life Support (BLS) for Physicians and Nurses. The workshop was attended by 10 physicians and nurses at the American Arab University in Al-Reyhan. This workshop was led by Mr. Ahmad Hudrob (American Heart Association "AHA" Instructor).

## Basic Life Support for Nurses

On March 27th, 2019; in a collaboration between IMET2000-Pal, The Ministry of Health, and Arab American University-Jenin, we organized a Basic Life Support (BLS) for Nurses from governmental hospitals in Rafeedia Hospital, Salfet Hospital, and Al-Watani Hospital. The workshop was attended by 10 nurses at Rafeedia Hospital in Nablus and this workshop was led by Mr. Ahmad Hudrob (American Heart Association“ AHA”).

## Art Therapy for Kids with Cancer

IMET2000-PAL in cooperation with An-Najah National University Hospital organized three activities in art therapy this month. The first training on the 2nd of March, 2019 was for children with cancer and chronic diseases. On 16th of the same month a second activity was held. It included a free drawing with watercolours, where each child could choose his/her own colour to help them reflect their feelings. On 22th of March, 2019 a third activity session was held. The children's passion to play and draw was obvious as they explored the art world. In these sessions, we used art therapy to help those children and their families explore and express difficult thoughts and feelings. About 5 children attended each activity. Ms. Hadeel Alawneh, art therapist, led the activities in the hospital. In this program, we are hoping to help these children cope with some of the cancer symptoms and its treatment.
