

# MET 2000 PAL

International Medical Education Trust - Palestine

Issue 11, January 2017

The overall mission of the Palestinian Health Sciences Education Centre is to provide high level professional education services support and enhance the learning capacity of all involved in health science education and service delivery as a continuing lifelong learning experience. In doing so, it will undertake research and development to pioneer and exploit all modalities of the 1 revolution including video-conferencing, telemedicine, website learning and internet connections and vehicles such as Moodle aspiring to establish an international reputation as a center of excellence, eventually to have a major impact on patient care Palestine.

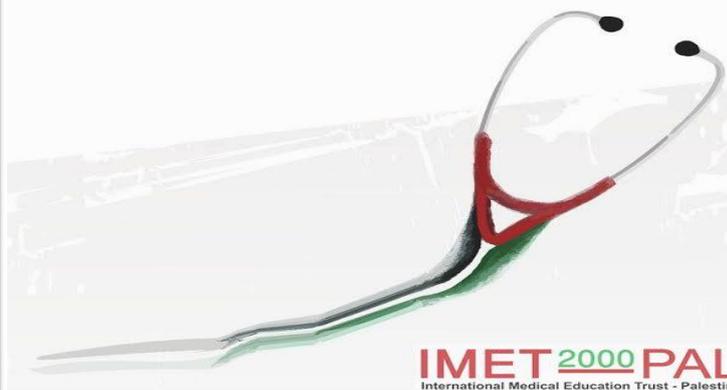

## "Leadership and Management Training: Improving the Supervision Skills among Health Professionals"

The Department of Nursing Education at IMET2000-Pal and in cooperation with the Palestinian Ministry of Health organised the first workshop on Leadership and Management Training: Improving the Supervision Skills Among Healthcare Professionals. The workshop aimed to help the leaders and managers to identify characteristics of managers and leaders and what is the difference between leadership, management and supervision. It also aimed to train them on how to use a variety of different frameworks and styles to become more effective leaders. More than 20 leaders and managers, working in different governmental hospitals, Augusta Vitoria Hospital and An-Najah National University Hospital, attended the workshop. This workshop was led by Mrs. Aida Zawahra/ Leadership and management trainer in Palestine.

## The First Annual Conference for Clinical Audit and Research

15 April, 2017  
Ramallah, Palestine

## IMET2000-PAL Organised Training for Doctors and Nurses on Essential Pain Management

In collaboration with the Palestinian Ministry of Health and as a part of our program on acute and chronic pain management, we organised a workshop on Essential Pain Management.

40 doctors and nurses who are working in governmental and private hospitals of different districts in Palestine attended the workshop. The workshop was led by Dr Mamoun Mansour -Orthopedic Specialist/ Al-Makassed Hospital, and Dr Murad Karajeh- Emergency Specialist/ Palestine Medical Complex. IMET2000 will continue organising similar workshops for all the health care professionals who are interested in this field.
