

IMET 2000 PAL

International Medical Education Trust - Palestine

Issue 5, May-2016

The overall mission of the Palestinian Health Sciences Education Centre is to provide high level professional education services to support and enhance the learning capacity of all involved in health science education and service delivery as a continuing lifelong learning experience. In doing so, it will undertake research and development to pioneer and exploit all modalities of the IT revolution including video-conferencing, telemedicine, website learning and internet connections and vehicles such as Moodle, aspiring to establish an international reputation as a center of excellence, eventually to have a major impact on patient care in Palestine.

IMET2000-Pal Organized Training Session for Doctors and Nurses on Basic Life Support (BLS) - Session II

The Department of Continuous Education at IMET2000-Pal and in cooperation with the Palestinian Ministry of Health organized another training course for doctors and nurses working in Hebron Governmental Hospital in the presence of 28 doctors and nurses. The workshop aimed to help doctors and nurses identify the latest developments and applications of CPR applied to children and adults. The course was led by Mr. Osaid Rasheed/ lecturer at Al-Quds University, Dr. Salah Al-Tameezi / Specialist Doctor in the emergency department at the hospital, and Ms. Iman Abu Kheran/ legal trainer nurse. It focused on theoretical and practical aspects of BLS and as per the American Heart Association (AHA) 2015 guidelines. Participants were also trained on how to embrace CPR techniques during resuscitation setting.

IMET2000-Pal organized a meeting with Ministry of Health

CEO of IMET2000, Dr. Malik Zaben, met the Minister of Health, Dr. Jawad Awad in the presence of Dr. Amal Abu Awad; director of medical education in the ministry and Ms. Mary Aqra; Assistant for International Affairs. The two sides reviewed the continuing health education and career development workshops and activities carried out by IMET2000 recently, especially the opening of electronic libraries in governmental hospitals.

It has been agreed that IMET2000 will work with the MoH to help in the development of a national strategic plan for health career professional development and advanced trauma and life support (ATLS) training in Palestine.

IMET2000-PAL Opens the Electronic Health Centers

IMET2000-Pal in partnership with the Palestinian Ministry of Health opened the electronic health library at Thabet Thabet Governmental Hospital in Tulkarem.
