

MET 2000 PAL

International Medical Education Trust - Palestine

Issue 26, October 2018

The overall mission of the Palestinian Health Sciences Education Centre is to provide high level professional education services to support and enhance the learning capacity of all involved in health science education and service delivery as a continuing lifelong learning experience. In doing so, it will undertake research and development to pioneer and exploit all modalities of the IT revolution including video-conferencing, telemedicine, website learning and internet connections and vehicles such as Moodle, aspiring to establish an international reputation as a center of excellence, eventually to have a major impact on patient care in Palestine.

Emergency Nursing Core Training: Basic Electrocardiogram Interpretation (ECG)- Session V

October 13, 2018; IMET 2000-PAL in cooperation with Palestinian Nursing and Midwifery Association-Bethlehem branch organised the Emergency Nursing Core Training: Basic Electrocardiogram Interpretation (ECG). It is designed for critical care nurses, who are working in the emergency, medical, and critical departments. The workshop was attended by 30 nurses from governmental and private hospitals in Bethlehem. This workshop was led by Mr Abed Al-Kreem Asakra

IMET2000-Pal Sponsored 2 Nurses from Bethlehem University

As a part of its programs in developing the health sector, IMET2000-Pal supports 2 nurses from Bethlehem University: Mr Bilal Awad, and Mr Mohammad Salah, in the High Diploma Program in Oncology Nursing and Palliative Care Training in Glasgow for approximately one month. The students told IMET2000 that the training was really useful and worthwhile. This training is instrumental in oncology training for nurses will help them looking after patients with cancer.

Meeting with Al-Quds University in Abu Dies

IMET2000 CEO Dr. Malik Zaben and IMET2000-Pal team had a strategic meeting with President of Al-Quds University Professor Imad Abu Kishek, the dean of School of Medicine, Dr Hani Abdeen and the Dean of Research, Dr Elham Khatib. In this meeting, issues of mutual interest to both parties were thoroughly discussed. The two sides have agreed to continue collaboration at different levels for the benefit of continuing health education and clinical research in Palestine

Anaesthesia Programme

Dr Abdelsatar Ravalia, an anesthesiologist from UK was the third volunteer to Palestine as part of anaesthesia training program to support safe global anaesthesia and to run hands-on training for the anaesthesia residents. Dr Abdelsatar accomplished his 2-week mission starting on 7/9/2018 and visited 4 hospitals: AL-Makased hospital, Palestine Medical Complex (PMC), Rafedia Hospital, Hebron Hospital.

IMET 2000-PAL Organised workshop in Medical Research Methodology

On the 9th of October 2018, IMET2000-Pal organised a workshop in Medical Research Methodology for the medical students at Al-Quds University-Abu Dies. More than 200 4th, 5th and 6th year medical students attended the workshop, which was conducted by our CEO Dr Malik Zaben, Clinical Lecturer and Researcher in Neurosurgery, Cardiff University, UK. The training aimed at enhancing the knowledge of students about types of medical research, the difference between a research and a clinical audit. Students were also trained on how to design their research questions and proposals.
